③ DD/S \* h/w by Col. White: "Bob: I don't really think the Director will want to read all this detail and that he would certainly accept your judgment as to when we should report this to the Intelligence Community. Why don't you just bring it up again when you think the time is right. s/LKW"

As requested at the Executive Committee meeting on 6 January 1967, there is attached a report on the

25X1 status of [redacted]  
From the substance of the report I feel that it is premature to report this activity to the intelligence community and that we should wait a short time for its operating effectiveness to be clearly established.

SIGNED R. L. Bannerman
